

Vacuum Switch with LED display LED Digital Pressure Sensor 21-series

- *To improve visibility, an LED display is adopted for the vacuum switch.*
 - *LED displays indicates set-up pressure and working pressure.*
- *Two types of vacuum switch selection: Two switch output type, and one switch output and an analog output. A connector wiring realize easy layout.*
- *Three pipe connection methods are available: Push-in Fitting, M5 metric female thread, and direct mount.*
 - *Output detection accuracy is enhanced by the use of semiconductor switch.*
