

CARD CLOTHING BELT

Front side

Back side

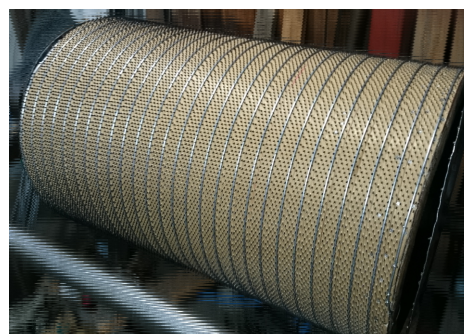

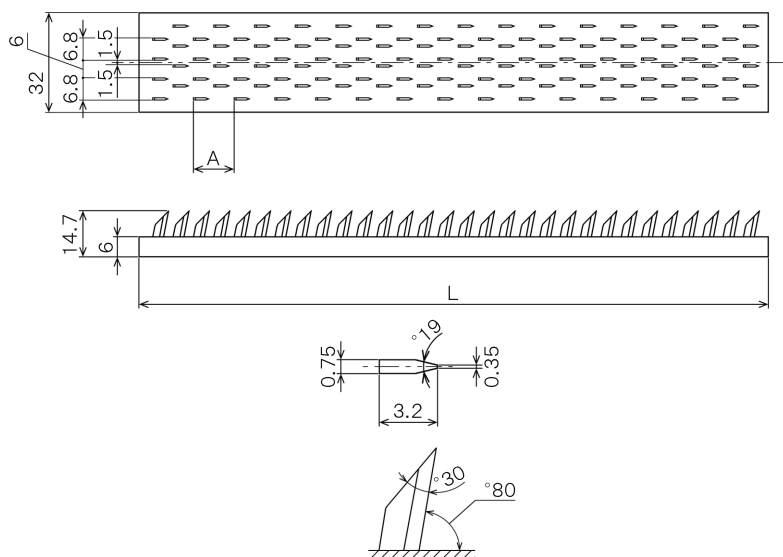

Overview

This is a thick cloth belt that a quenched needle is buried in closely.
The main usage is “Carding machine of cotton” “Recycling machine of fiber”, etc.

| Model | | No.2 | No.3 | No.4 |
|----------------------------|--------|---|--------|--------|
| Needle pitch (Dimension A) | | 8mm | 11.8mm | 15.0mm |
| Material | Needle | Carbon steel S60C (Quenching hardness HRC-50±3) | | |
| | Belt | Cloth-inserted rubber (Tensile strength 750kgf) | | |
| Length | | Unit : 1 meter (Maximum length of one : 200m) | | |

Warning: Be very careful when handling the belt because the tip of the quenched needle is very sharp.
If there is a chance that the product will pose a hazard to humans, install a protective cover.
